Subject: Declaration of Absence of PBT Substances in Parker TFD Products Purchased

Parker Tube Fittings Division (TFD) has conducted a review of the products it manufactures with regard to the requirements of the EPA's **Regulation of Persistent, Bio-accumulative, and Toxic Chemicals Under TSCA Section 6(h)**.

Our review indicates that – to the best of our ability – we have determined that the products provided to you by Parker TFD do not contain any of the following chemicals (PBT Substances) which constitute the entire EPA action.

- Phenol, isopropylated phosphate (3:1) (PIP (3:1))
- Decabromodiphenyl ether (DecaBDE)
- 2,4,6-Tris(tert-butyl)phenol (2,4,6-TTBP)
- Hexachlorobutadiene (HCBd)
- Pentachlorothiophenol (PCTP)

Parker TFD will advise of any changes that may develop as a result of ongoing study.

Please contact us if there is any further need for information or any questions we can answer.

Regards,
