

New Parker FittingFinder App

Quickly identifies Parker tube fittings for faster, easier leak-free solutions onsite – and inhand.

Developed for field maintenance and design engineers alike, the new Parker FittingFinder app is the ultimate interactive resource for all tube fitting leak-free solutions.

This convenient, highly comprehensive tool:

- Identifies replacement fittings
- Pulls specs and dimensions
- Locates nearby distributors

And so much more. All with the touch of your mobile device or tablet.

It's fast. It's effective. And it's always up to date.

ENGINEERING YOUR SUCCESS.

Find Your Fitting Solution. Fast.

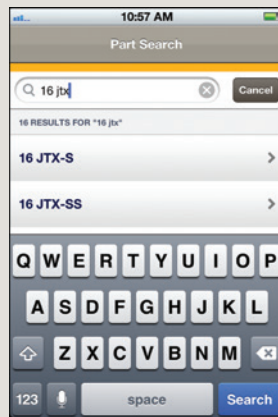

The Parker FittingFinder app helps you easily locate the part number for the fitting you need. All at your fingertips using the touchscreen on your smart phone or tablet.

See how our FittingFinder app can help you...

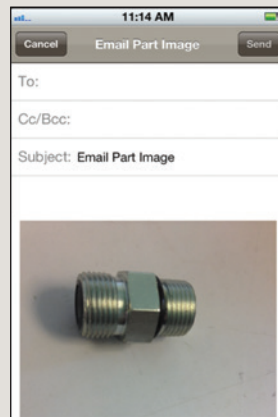

Fitting Identification

For help in identifying a replacement fitting or part number, simply select the **shape, end type and size** for each end. And then choose the **material**. The result is an emailable specs page, complete with dimensions, a list of nearby Parker distributors and a link to the fitting's CAD file.

Search by Part Number

Just enter a Parker part number to gain access to a **emailable specs page**, which includes dimensions and a link to a selection of the nearest Parker distributors.

Email Photo of Part

To help further identify a fitting, you can simply select a fitting image from your photo library or take a new one. Then email the image to us at the Parker Tube Fittings Division or any other address you choose.

Where to Buy

Enter your zip code or use your device's GPS to get a complete listing of all the **nearest authorized Parker distributors**.

The app also provides a:

- "Call" link for direct dial
- "Map it" option to view map and obtain directions
- Button to add distributor to "Favorites"

The new Parker FittingFinder app provides the exact info you need when you need it most – and maybe even before.
